

Apartamenty przy Krasinskiego topped off

Thursday, 31 May, 2012

Atlas Estates has informed about the conclusion of construction works on the reinforced concrete structure of both buildings comprising Apartamenty przy Krasinskiego, a housing estate located in Warsaw's Zoliborz district, at the junction of Krasinskiego and Przasnyska streets. To celebrate this occasion the general contractor, UNIBEP, has organised a roof-topping ceremony. This means that UNIBEP is 1,5 ahead of schedule and in favourable conditions may finish construction works before the deadline, planned for mid-2013. Clients will be able to see the stage of construction works' advancement themselves during the "Open doors" days this weekend, i.e. 2-3 July. The developer has also summarized the newest sales results, which reveal that Apartamenty przy Krasinskiego is the fastest-selling housing estate in the neighbourhood. To maintain interest, Atlas Estates offers lowered prices for two-room flats till the end of June.
