

API Market i Delicafe – Galeria Millennium’s new tenants

Monday, 9 July, 2012

Two new outlets have been recently opened in the retail gallery of Millennium Plaza building, located in the centre of Warsaw: API Market grocery store and Delicafe bistro. These new tenants lease the total premises of over 400 sq. m. The recently signed contracts are in line with Galeria Millennium’s strategy to obtain prestigious tenants that satisfy the needs of office workers in the building and increase the number of customers from the outside.
