

# **Atlas Estates concludes construction of Capital Art Apartments**

Monday, 13 April, 2015

Atlas Estates announced that it had received a final occupancy permit from construction supervision authority concerning 76-apartment E2 building within Capital Art Apartments estate. As a result, handing over keys to the apartments to residents will take place ahead of deadline planned in the initial construction schedule. This marks the termination of Capital Art Apartments investment project after 9 years from the commencement of its first phase. Only 5 last apartments are still available for purchase so Atlas Estates expects to conclude their sales in the near future. Apart from residential units there are also 10 retail and services units available.
