

ConceptHouse – apartments free from convention

Monday, 7 March, 2011

The sales of flats in newest project by Atlas Estates – ConceptHouse Mokotow – have been launched. In line with the concept of “apartments free from convention” the building provides original architecture and flexible flat arrangement possibilities. The estate’s localization in dynamically transforming part of Mokotow district represents investment’s another edge. As in other Atlas Estates residential properties, the building will be constructed in the above-average standard.
