Chairman's Statement

Dear Shareholders,

I am pleased to announce the unaudited financial results for Atlas Estates Limited ("Atlas" or "the Company") and its subsidiary undertakings (together "the Group") for the nine and three months ended 30 September 2020.

In the current financial market conditions and the disruption caused by the outbreak of COVID-19 coronavirus the key priorities are enhancing liquidity, gaining access to capital as well as monitoring the market to locate new investment projects. All of these objectives are vital for operations as they will underpin our drive to progress the growth of the operations.

Below are our main developments:

- On 27 January 2020 the Group concluded sale agreement of its investment in a Romanian subsidiary at the net sale price of €7.7 million. As of 30 September 2020 the book value of this investment (classified as assets held for sale and liabilities directly associated with assets held for sale) amounted to €3.3 million. This transaction is planned to be completed by 31 December 2020 and on April 8, 2020 the Group received a €0.3 million advance in respect of the sale price (note 12).
- In February 2020 the Group paid a refundable deposit of €2.4 million (disclosed as trade and other receivables as of 30 June 2020) in relation with potential acquisition of an office building in Warsaw. This purchase transaction was not completed and the deposit was returned to the Group in July 2020.
- In the third quarter 2020 the Group acquired and sold minority shareholding in the entity holding hotel in Berlin. A profit of €0.3 million was realised as a result of this transaction (see note 19).

Reported Results

As of 30 September 2020 the Group has reported basic net assets of €125.4 million.

The decrease of basic net asset value by €17.1 million (i.e. 14%) from €142.5 million as at 31 December 2019 is primarily a result of:

- €5.1 million downward revaluation of *Hilton* (net of tax) recorded in 2020;
- 6% depreciation of PLN against EUR in the first nine months of 2020;

Majority of the Group assets are located in Poland and reporting in PLN functional currency. While preparing consolidated accounts of the Group, their balances were translated into EUR reporting currency, which resulted in €9.2 million loss reported in translation reserve;

- loss after tax amounts to €3.1 million for the nine months period ended 30 September 2020;

Loss after tax amounts to \in 3.1 million for the nine months period ended 30 September 2020 as compared to profit after tax of \in 2.3 million for the nine months period ended 30 September 2019. The significant change of the noted results was mainly a joint effect of:

- €4.4 million deterioration of gross profit generated by hotel operations in 2020 (as explained on page 14) and,
- €2.2 million gross profit realized on one-off transaction, i.e. sale of Nakielska Apartment Project, in May 2019 (as explained in note 10).

Financing, Liquidity and Forecasts

The Group's forecasts and projections have been prepared taking into account the economic environment and its challenges and mitigating factors. These forecasts incorporate management's best estimate of future trading performance, potential sales of properties and the future financing requirements of the Group.

In determining the going concern basis of the Group the Board have considered worst case scenarios that can be anticipated and in all scenarios forecasts show that the Group shall have sufficient cash and cash equivalents to meet expected liabilities as they fall due for a period of not less than 12 months from the date of approval of these interim financial statements. Accordingly, the Directors continue to adopt the going concern basis in preparing the condensed consolidated financial information for the nine months ended 30 September 2020, as set out in accounting policies to the condensed consolidated financial information.

Investing Policy

Atlas invests mainly in Poland in a portfolio of real estate assets across a range of property types, where approximately 93% of its assets are located. We actively target Poland, where we believe we have the best capabilities and footprint. Atlas also operates in the Romanian and Bulgarian real estate markets.

We may employ leverage to enhance returns on equity. Wherever possible, the Directors intend to seek financing on a non-recourse, asset by asset basis. The Company has no set limit on its overall level of gearing. However, it is anticipated that the Company shall employ a gearing ratio of up to 80% of the total value of its interest in income-generating properties within its property portfolio.

Net Asset Value ("NAV") and Adjusted Net Asset Value ("Adjusted NAV")

In the nine months to 30 September 2020, NAV per share decreased from \in 3.0 per share to \in 2.7 per share. The NAV per share as at 30 September 2019 was \in 2.3 (restated). The interim condensed consolidated financial information has been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union. The significant increase in NAV per share during 2019 was mainly attributable to increase of net assets due to cash realisation of property assets in excess of the carrying value and the recognition of a right of use asset at fair value related to the rights of perpetual usufruct connected with *Hilton* hotel in Warsaw following the implementation of IFRS 16 as presented in 2019 annual consolidated financial statement.

As in the previously reported quarterly results, the Adjusted NAV per share, which includes valuation gains net of deferred tax on development properties held in inventory and assets held for sale, has not been included. The Adjusted NAV per share is calculated on an annual basis when the market valuation of the Group's assets portfolio takes place.

For the interim accounts valuations of key assets located in Poland (Hilton Hotel, Atlas Tower- office building and Galeria Platinum Towers- retail property) were performed by an external expert. As of 30 June 2020 Jones Lang LaSalle - external independent qualified expert, was responsible for the valuation of these assets.

It should be underlined that the valuation of Hilton hotel as of 30 June 2020 was reported by Jones Lang LaSalle on the basis of 'material valuation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to this valuation than would normally be the case. This is the result of the outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020 and its negative impact on hotel sector.

Corporate Governance

Atlas ensures that the Group applies a robust corporate governance structure, which is vital in the current economic conditions. This is important as there is a clear link between high quality corporate governance and shareholder value creation. A statement on Atlas compliance with the corporate governance recommendations and principles contained in Best Practice for WSE listed companies is presented on Atlas corporate website.

Risks and uncertainties

The Board and the Property Manager continually assess and monitor the key risks of the business. The principal risks and uncertainties that could have a material impact on the Group's performance for the rest of the financial year 2020 are summarised in the Property Manager's Report on pages 13 and 14 below.

Prospects

The outbreak of coronavirus in the world and its occurrence in Poland affects the economic growth of this country. At the end of 2019, Polish Ministry of Finance, when preparing the strategy for 2020-2023, estimated the GDP index at 3.7% in 2020. After the outbreak of the coronavirus, most banks in Poland decided to revise the GDP forecasts to decrease from -2% to -4.2%. International Monetary Fund predicts that GDP will decrease in Poland in 2020 by 3.6%, whereas in 2021 it anticipates GDP growth of 4.6%.

The Board's experience in Polish market cause us to believe that the Group should still focus on strengthening as well as expanding our real estate portfolio in Poland.

Mark Chasey CHAIRMAN 23 November 2020

Review of the Property Manager

In this review we present the financial and operating results for the nine months ended 30 September 2020. Atlas Management Company Limited ("AMC") is the Property Manager appointed by the Company to oversee the operation and management of Atlas' portfolio and advise on new investment opportunities. At 30 September 2020, the Company held a portfolio of twelve properties comprising six investment properties of which three are income yielding properties, three are held for capital appreciation, two hotels and four development properties. One hotel is subject to sale agreement (see note 12).

Markets and Key Properties

Poland

This is the major market of operation for the Group, with 93% (by value) of the Group's portfolio located there. The Polish economy has been one of most resilient economies in Europe with annual real GDP growth of 4.1% in 2019.

Hilton Hotel, Warsaw

The *Hilton* hotel in the Wola district of Warsaw is the Group's flagship asset. The hotel was continuously performing at a satisfactory level until the outbreak of COVID-19, as disclosed on page 14.

Atlas Tower (former name: Millennium Plaza), Warsaw

The *Atlas Tower* is a 39,138 sqm office and retail building centrally located in Warsaw with occupancy rate of 93% as of 30 September 2020 (95% as of 31 December 2019). The Group completed a renovation project in 2019 of some of the public spaces, which attracts new tenants.

Atlas Estates Tower

The Group was planning to build a mixed use (residential and office) Atlas Estates Tower, on the neighbouring plot alongside the *Hilton* hotel, however since the scale of the development exceeded the Group's investment abilities on 22 November 2018 the Group decided to enter into a preliminary sale agreement and dispose this property at the sale price of PLN147 million (i.e. equivalent of \in 34 million) to a third party. On 7 August 2019 a conditional sale agreement was concluded (increasing sale price to PLN 148 million) and by 30 September 2019 PLN 14.8 million (equivalent of ca \in 3.5 million) was received in respect of the sales price. This transaction was completed on 7 October 2019 and full sale price was received.

Galeria Platinum Towers

Commercial area on the ground and first floors of Platinum Towers with 1,904 sqm of gallery and 208 parking places almost fully let to tenants.

Apartamenty przy Krasińskiego

Apartamenty przy Krasińskiego project is a development in the Żoliborz district of Warsaw.

The first stage of this development included 303 apartments as well as parking and amenities and retail facilities. The construction of the first stage was completed in 2013. The second stage of this successful development project released 123 apartments as well as parking and retail facilities. The construction commenced in November 2015 and was completed in August 2017. As of 30 September 2020 all apartments and retail units were sold or presold.

Capital Art Apartments

The *Capital Art Apartments* project in Warsaw is another development in Warsaw close to the city centre. It is a four stage development with 784 apartments as well as parking and amenities, including retail facilities. As of 30 September 2020 all apartments from all stages were either sold or presold, whereas 1 retail unit remains available for sale.

Nakielska Apartments Project

This is a residential development that was planned to be constructed in Wola district of Warsaw. On 13 May 2019 the Group sold this project as disclosed in note 10.

Romania

The Group's portfolio contains three properties in Romania, including the *Golden Tulip* hotel and two significant land banks – Voluntari and Solaris. The occupancy rates at the Golden Tulip decreased from 71% for the nine months ended 30 September 2019 to 19% for the nine months ended 30 September 2020 as a result of the implications of COVID-19. The Golden Tulip hotel is subject to a sale agreement and is expected to be sold during 2020, see note 12.

Bulgaria

The Group holds one income yielding property in Bulgaria, the Atlas House, which is a ca. 3,500 sqm office building in Sofia.

Financial Review

The on-going analysis of the economics of the region and the key measures of the sectors in which the Group operates are vital to ensure it does not become overexposed to, or reliant on, any one particular area. AMC evaluates the risks and rewards associated with a particular country, sector or asset class, in order to optimise the Company's return on investment and therefore the return that the Company is able to deliver to Shareholders over the longer term.

Portfolio valuation and valuation methods

An independent valuation of the entire property portfolio is carried out on an annual basis. For the interim semi-annual accounts the valuation of selected assets was performed as described on page 5. There is uncertainty taking into account current fluctuations in the global economy as a result of the COVID-19 outbreak and therefore these valuations could be different as of the date of this report. However the management strongly believes that the current market disruption is temporary and key assets held by the Group will generate long term value for the shareholders.

Loans and valuations

As at 30 September 2020, the Company's share of bank debt associated with the portfolio of the Group was €70 million (31 December 2019: €74 million; 30 September 2019: €74 million). Loans, valuations and Loan to Value ratios ("LTV") for those periods in which valuations were undertaken may be analysed as follows:

	Loans 30 S	Valuation eptember 20	LTV Ratio*)20	Loans 31 De	Valuation ecember 20	LTV Ratio* 19	Loans 30 Se	Valuation eptember 20	LTV Ratio* 19
	€ millions	€ millions	%	€ millions	€ millions	%	€ millions	€ millions	%
Investment property Hotels	23 47	74 91	31% 52%	24 50	75 103	32% 49%	25 49	71 101	35% 49%
Total	47 70	165	52%	74	103 178	49% 42%	49 74	101 172	49% 43%

*LTV Ratio- Loan to Value Ratio

LTV ratio of investment property decreased from 35% as of 30 September 2019 to 32% as of 31 December 2019 and to 31% as of 30 September 2020 mainly due to increase in the valuation of *Atlas Tower*, as well as scheduled loan repayments.

LTV ratio of hotels increased from 49% as of 30 September 2019 and 31 December 2019 to 52% as of 30 September 2020 mainly due to decrease in the valuation of *Hilton* as a result of COVID outbreak.

The gearing ratio is 13% based upon net debt as a percentage of total capital (net debt plus equity attributable to equity holders). The ratio increased as compared to 31 December 2019 (12%) mainly due to the decrease in valuation of *Hilton* and \in 9.2 million loss reported in translation reserve (as explained at page 12).

Debt financing

Key developments were described in note 14.

Review of the operational performance and key items on the Income Statement

The financial analysis of the income statement set out below reflects the monitoring of operational performance by segment as used by management.

					Nine months ended	Nine months ended

Revenues and cost of operations

Total Group revenues decreased significantly to ≤ 12.4 million for the nine months ended 30 September 2020 compared to ≤ 30.9 m for the same period in 2019 due to the hotel operations being significantly impacted by the COVID-19 pandemic (see page 14), as well as one off sale transaction which generated ≤ 7.8 m proceeds in May 2019 (sale of Nakielska project-as explained in note 10). The Group's principal revenue streams are from its hotel operations, property rental and from the sale of the residential apartments that the Group develops.

Cost of operations were €7.2 million in the nine months ended 30 September 2020 compared to €18.6 million for the nine months ended 30 September 2019.

Sale of residential units (i.e. apartments, retail units, parking places, storages) developed by the Group are recognised when the performance obligations have been fulfilled in line with the Group's accounting policies. The performance obligations are considered fulfilled when the customer takes control of the property units documented by the signing of the relevant notarial deed. In 2017 the Group, following a completion of *Apartamenty przy Krasińskiego stage II* project in August 2017, has started signing notarial deeds and consequently recognised first sales and associated costs of this project.

As a result, as presented in the table below, in the nine months ended 30 September 2020 the Group managed to complete the sale of 2 apartment (in *Apartamenty przy Krasińskiego stage II*) and 2 small size retail units (in *Capital Art Apartments*), whereas in 2019 the revenues from the sale of 4 retail units (in *Capital Art Apartments and Apartamenty przy Krasińskiego*)

stage *II* projects) and 2 apartments were recognized. Additionally, as described in note 10, in May 2019 the Group sold *Nakielska Apartment Projects* realizing €2.2 million gross profit on this transaction.

In the first nine months of 2020 the gross margin realized by the Property Rental segment improved as compared to the first nine months of 2019, which was mainly attributable to *Atlas Tower* improved occupancy as well as deconsolidation of *Felikon* property in the first quarter of 2019.

Hotel operations

	Nine months ended 30 September 2020 € millions	Nine months ended 30 September 2019 € millions	Total change 2020 v 2019 € millions	Translation foreign exchange effect € millions	Operational change 2020 v 2019 € millions

Administrative expenses	(1.8)	(2.0)	0.2	-	0.2
Gross profit less administrative expenses	(0.8)	3.4	(4.2)	(0.7)	(3.5)

In the nine months ended 30 September 2020 the hotel operation declined due to outbreak of COVID-19 (as disclosed on page 14), which resulted in sharp decrease of *Hilton* and *Golden Tulip* occupancy since mid-March 2020.

Valuation movement

As of 30 September 2020 the increase of the market value of the investment properties portfolio was of \in 1.4 million as compared to an increase of \in 0.7 million as of 30 September 2019. The movements relate to change in value of *Atlas Tower* and *Galeria Platinum Towers* (in 2020) and *Atlas Tower* only (in 2019) valued at 30 June.

Foreign exchange

The fluctuations in exchange rates in the underlying currencies of the countries in which the Group operates and owns assets have resulted in large foreign exchange differences.

The movements in value of the functional currencies resulted in foreign exchange loss of €1.3 million in the consolidated income statement for the nine months ended 30 September 2020 (nine months period ended 30 September 2019: €1.0 million loss) and €9.2 million loss in other comprehensive income for the nine months ended 30 September 2020 (nine months ended 30 September 2019: €1.4 million gain). The losses in the consolidated income statement were mainly due to the unrealised foreign exchange losses on EUR denominated liabilities (bank loans, intra group financing) in Polish, Romanian and Hungarian subsidiaries. The incurred foreign exchange losses worsened as a result of the increase in depreciation of PLN against EUR from 2% in the nine months ended 30 September 2019 to 6% in the nine months ended 30 September 2020.

A summary of exchange rates by country for average and closing rates against the reporting currency as applied in the interim condensed consolidated financial information are set out below.

Net Asset Value

The Group's property assets are categorised into four classes, when accounted for in accordance with International Financial Reporting Standards as adopted by the EU. The recognition of changes in value in each category is subject to different treatment as follows:

- Yielding assets let to paying tenants classed as investment properties with valuation movements being recognised in the Income Statement;
- Property, plant and equipment ("PPE") operated by the Group to produce income, such as the Hilton hotel revaluation movements are taken directly to reserves, net of deferred tax; and
- Property developments, including the land to be used to build property for sale held as inventory, with no
 increase in value recognised in the financial statements unless where an increase represents the reversal of
 previously recognized deficit below cost.
- Land held for possible future development of as yet undetermined use classed as investment properties with valuation movements being recognised in the Income Statement.

The Property Manager's management and performance fees are based on the adjusted NAV. For the nine months to 30 December 2020 the combined fee payable to AMC by the Group was €2.1 million (€1.8 million in the first nine months to 30 September 2019 (more details are presented in note 16a).

In 2020 the Board of Directors of the Company (the Board) conducted a review of the Property Management Agreement ("PMA") and in particular the means by which performance fee is calculated. Of primary concern to the Board were the following issues:

- the drafting of the clauses and definitions in the PMA as regards the calculation of performance fee are not concise and ambiguity can lead to multiple interpretations and thus differing calculations;

- the lack of a properly constructed high-water mark mechanism has led to performance fees being paid multiple times on NAV gains in the same bracket, i.e. performance fees have been paid or accrued on certain gains in NAV, but due to subsequent reductions in NAV in a following period, upon the NAV increasing again in the next period, performance fees have been paid or accrued again on the same NAV increase for which performance fees have been paid previously;

- performance fee calculations appear to be disproportionate to the intention of the PMA which is to set a 12% hurdle rate.

Having concluded its review, and taken external legal advice on the interpretation of the PMA, the Board was of the view that it does not agree with the interpretation which has been taken previously in respect of performance fee calculations and it disputed the amounts which have been paid or accrued. Past Performance Fees which have accrued, but which are yet to be paid amount to €10.8m. The amount due to AMC is subject to change that is contingent on the resolution of the dispute. No asset has been recognised in respect of any reduction of the said balance. AEL and AMC have agreed that no performance fee will be due for 2019. On the basis of the above, the Board was in a position to approve the financial statements of the Company and the consolidated financial statements of the Group for the year ending December 2019, without accruing for a performance fee for 2019 and at the same time the Board commenced discussions with AMC to discuss the above concerns and agree a mechanism which will ensure a fair and appropriate remuneration structure for both parties going forward from 2020. The value of performance fee for 2019 and 2020 which has not been accrued by the Company (if historical interpretation of calculation method is applied) amounts to €nil million. The Board have not yet agreed a mechanism for 2020 onwards and accordingly no performance fee has been accrued for the period to 30 September 2020.

Ongoing activities

During the first nine months of 2020, the Company continued to identify ways by which it can generate added value through the active management of its yielding asset portfolio.

The property portfolio is constantly reviewed to ensure it remains in line with the Company's stated strategy of creating a balanced portfolio that will provide future capital growth, the potential to enhance investment value through active and innovative asset management programmes and the ability to deliver strong development margins.

A key management objective is to monitor operations of hotel activity as well as enhance occupancy of income yielding assets.

Financial management, operational management and material risks

In continuing to fulfil its obligations to its Shareholders and the markets, together with maintaining its policy of maximum disclosure and timely reporting, the Group is continually improving and developing its financial management and operational infrastructure and capability. Experienced operational teams are in place in each country, where there is significant activity, otherwise a central operational team and investment committee monitor and control investments and major operational matters. As such, the management team continually reviews its operating structures to optimise the efficiency and effectiveness of its network, which is particularly important given the current environment.

Global economic conditions

The Board and the Property Manager closely monitor the effects that the current global economic conditions have on the business and will continue to take steps to mitigate, as far as possible, any adverse impact that may affect the business.

The Group derives its revenue from activities carried out mainly in the Polish market with Romania and Bulgaria also contributing, however at a much lower level. The Group's financial results are therefore contingent on factors such as the stability of the political systems at the given moment and the macroeconomic data related mainly to the condition of the Polish but also Romanian and Bulgarian economies, in particular the level of GDP growth, investment spending, levels of household income, interest rates, foreign exchange rates and inflation rate. Any deterioration to the macroeconomic conditions in these countries may expose the Group's business to risk, thus affecting its future financial results and prospects for development.

Impact of COVID-19 coronavirus on the Group's operations

As of today, there has been an impact on the business of:

a. Hotel sector

Hilton hotel:

- March 2020 occupancy was 76% lower as compared to the same period of 2019;
- Following Polish government decision the hotel was closed in the period from April 2 until May 3, 2020;
- On May 4, 2020 the hotel's management concluded that closure of the hotel should be extended until the end of May 2020 (insufficient expected occupancy of the hotel would not cover additional costs associated with hotel reopening);
- the Board together with Hilton's management have taken significant actions to decrease the operating expenses of the hotel, nevertheless some costs were unavoidable and continued to be incurred while the hotel was closed;
- In the period June- September 2020 the hotel occupancy was 77% lower as compared to the same period of 2019;
- No income from conference organization was earned from April to September 2020;
- Following Polish government decision hotels are available to guests on business trips and remain closed for tourists starting from November 7, 2020.

Golden Tulip hotel:

- was also temporarily closed in April and May 2020;
- In the period June- September 2020 the hotel occupancy was 84% lower as compared to the same period of 2019.

The revenues from the hotel activity amounted to \in 2.4 million in the second and third quarter 2020 as compared to \in 9.8 million in the same period in 2019.

As of 30 June 2020 the valuation of Hilton hotel, as assessed by external experts Jones Lang LaSalle, has dropped by 8% as compared to the previous valuation as of 31 December 2019.

The timing when the hospitality sector will achieve historical results is unknown as it depends on several factors e.g. on timing of relaxing the international flights restrictions or restrictions on public gatherings.

- b. Rental income from tenants:
 - Following Polish government decision to close the restaurants, fitness clubs etc. several of the Group's tenants suffered from these restrictions. As a result in the second and third quarter 2020 the Group offered certain rent reliefs to these tenants in return for lease term extensions. Since 24 October 2020 stationary business activity in restaurants is forbidden. It is only possible to provide services for take-away and delivery. No restrictions were imposed to the office rental activity.

The Group was also in contact with the banks financing its projects:

Hilton

The Group obtained a waiver from the bank and as of 30 September 2020 there were no breaches of the bank covenants in respect of this facility;

Golden Tulip

The Group signed the annex with the bank based on which loan repayments scheduled in the period April- June 2020 were suspended until 1 July 2020. Additionally the loan maturity date was extended from June 2026 until September 2026;

- Galeria Platinum Towers

The Group obtained a waiver from the bank and as of 30 September 2020 there were no breaches of the bank covenants in respect of this facility.

Financing and liquidity

Management has experienced strict requirements of the lenders for financing in the CEE region which has been reflected in the covenants that are applied to facilities, such as a reduction of loan to value ratio, increasing margins and an increase in levels of required pre-sales on development projects. The management team see this as a potential risk to the ongoing development of the Company and as a result are devoting significant resource to the management of banking relationships and the monitoring of risk in this area.

Cash is managed both at local and head office levels, ensuring that rent collection is prompt, surplus cash is suitably invested or distributed to other parts of the Group, as necessary, and balances are held in the appropriate currency. Where possible, the Company will use debt facilities to finance its projects, which the Company will look to secure at appropriate times and when available, depending on the nature of the asset – yielding or development.

Currency and foreign exchange

Currency and foreign exchange rates exposures are continually monitored. Foreign exchange risk is largely managed at a local level by matching the currency in which income and expenses are transacted and also the currencies of the underlying assets and liabilities.

Most of the income from the Group's investment properties are denominated in Euro and our policy is to arrange debt to fund these assets in the same currency. Where possible, the Group looks to match the currency of the flow of income and outgoings. Some expenses are still incurred in local currency and these are planned for in advance. Development of residential projects has created receipts largely denominated in local currencies and funding facilities are arranged accordingly. "Free cash" available for distribution within the Group is identified and appropriate translation mechanisms are put in place.

Conclusions

AMC's key strategic objective is the maximisation of value for the Company's Shareholders, which it continues to work towards. Its teams are very experienced in the active management of investment and development properties and provide the Company with local market knowledge and expertise. AMC currently focuses its efforts on monitoring the risks posed by the COVID-19 coronavirus and searching new investment opportunities in Poland, mainly in Warsaw.

INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1. Basis of preparation

This interim condensed consolidated and non-consolidated financial statements for the three and nine months ended 30 September 2020 has been prepared in accordance with International Accounting Standard No. 34, "Interim Financial Reporting" ("IAS 34"). The financial information has been prepared on a going concern basis and on a historical cost basis as amended by the revaluation of land and buildings and investment property, and financial assets and financial liabilities at amortised cost. The consolidated income statement, consolidated statement of comprehensive income, consolidated statement of financial position, consolidated statement of changes in equity, consolidated cash flow statement, non-consolidated statement of comprehensive income, non-consolidated statement of changes in equity, non-consolidated cash flow statement are unaudited. This unaudited interim condensed consolidated financial information should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended 31 December 2019. The nine months financial results are not necessarily indicative of the full year results.

As described in the Chairman's Statement and in the Review of the Property Manager, the economic environment as a result of the impact of COVID-19 coronavirus continues to present a lot of challenges for the Group and its management.

As at 30 September 2020 the Group held land and building assets with a market value of €165 million, compared to external debt of €70 million. Subject to the time lag in realising the value in these assets in order to generate cash, this "loan to value ratio" gives a strong indication of the Group's ability to generate sufficient cash in order to meet its financial obligations as they fall due. Any land and building assets and associated debts which are ring-fenced in unique, specific, corporate vehicles, may be subject to repossession by the bank in case of a default of loan terms but will not result in additional financial liabilities for the Company or for the Group. There are also unencumbered assets, which could potentially be leveraged to raise additional finance.

In assessing the going concern basis of preparation of the condensed consolidated interim financial information for the nine months ended 30 September 2020, the directors have taken into account the fact of the ongoing working capital management and noted the following:

• Assets held for sale included in current assets are held at cost with a net carrying value of €3.3m and are forecasted to realise proceeds of €7.7 million during 2020;

• Within trade payables of the Group is a performance fee payable to the Property Manager (as disclosed in note 13). The payment terms of this fee are subject to consultation between the parties (see note 18.5), and the actual payment will be subject to available cash flows of the Group.

Although the Directors are aware that the management of the liquidity position of the Group is a high priority considering the impact of COVID-19 coronavirus, the Company underlines that the Group holds significant cash reserves and over the past years proved their abilities in managing its cash position carefully and will continue to do so.

The Group's forecasts and projections have been prepared taking into account the economic environment and its challenges and the mitigating factors referred to above. These forecasts take into account reasonably possible changes in trading performance, potential sales of properties, favourable arrangements for the payment timetable for the AMC performance fee and the future financing of the Group. They show that the Group will have sufficient facilities for its ongoing operations.

While there will always remain some inherent uncertainty within the aforementioned cash flow forecasts, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the date of approval of these interim financial statements. Accordingly the Directors continue to adopt the going concern basis in preparing the consolidated financial statements for the nine months ended 30 September 2020.

2. Accounting policies

The accounting policies adopted and methods of computation are consistent with those of the annual financial statements for the year ended 31 December 2019, as described in the annual financial statements for the year ended 31 December 2019, and with those expected to be applied to the financial statements for the year ended 31 December 2020.

As disclosed in the consolidated annual financial statements for the year ended 31 December 2019 at pages 52-54 the Group implemented IFRS 16 and used the modified retrospective approach with 1 January 2019 being the date of initial application. Two of these adjustments applied as of 1 January 2019 were not included in the previously reported condensed consolidated quarterly report for the six months ended 30 September 2019, therefore in order to ensure comparativeness of the financial information the below balances had to be restated:

3. Segmental information

Amortisation

For management purposes, the Group is currently organised into three operating divisions – the ownership and management of investment property, the development and sale of residential property and the ownership and operation of hotels. These divisions are the basis on which the Group reports its segment information. Segment information about these businesses is presented below:

Hotels Hilton in Warsaw and Golden Tulip in Bucharest constitute the majority of the total property, plant and equipment balance as of 30 September 2020, 30 June 2020, 31 December 2019 and 30 September 2019. The latest valuation of hotels was performed as of 30 June 2020 (Hilton hotel) and 31 December 2019 (Golden Tulip hotel) by qualified professional valuers, acting in the capacity of external valuers. The results of valuation:

- revaluation adjustments, net of applicable deferred taxes, have been taken to the revaluation reserve in shareholders' equity,

- impairment adjustments have been taken to other operating expenses/ reversal of impairment adjustments have been taken to other operating income.

It should be underlined that the valuation of Hilton hotel as of 30 June 2020 was reported by Jones Lang LaSalle on the basis of 'material valuation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to this valuation than would normally be the case. This is the result of the outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020 and its negative impact on hotel sector. The inputs to the valuation of the Hilton include the forecast of performance of the hotel that has been prepared based on a number of assumptions including occupancy levels and average room rates which are affected by the uncertainty of the continued impact of Covid-19.

The Group has pledged property, plant and equipment (including property, plant and equipment classified as held for sale) of €96.5 million (30 June 2020: €98.3 million; 31 December 2019: €110.6 million, 30 September 2019: €79.5 million) to secure certain banking facilities granted to subsidiaries. Borrowings for the value of €47.1 million (30 June 2020: €47.8 million; 31 December 2019: €49.9 million, 30 September 2019: €49.5 million) are secured on these properties.

There are no other material legal cases or disputes that are considered material to the consolidated financial information that would either require disclosure or provision within the financial information.

18.2 Financial forecasts

No financial forecasts have been published by the Company in relation to the year ended 31 December 2020.

18.3 Substantial shareholdings

The Board is aware of the following direct or indirect interest in 5% or more of the Company's ordinary share capital (excluding 3,470,000 treasury shares, which have no voting rights). All shares have equal voting rights.

1. Direct shareholders (i.e. shareholders holding the shares for the benefit of other parties)

 Beneficial shareholders (*i.e.* shareholders for the benefit of which the above direct shareholders held the shares) based on the information provided to the Company by these shareholders under the applicable legislation (*the notifications* received from shareholders in accordance with Art. 70 with connection to art. 69 of the Act of 29 July 2005 on the Public Offering, Condition Governing the introduction of Financial Instruments to Organized Trading and Public Companies)

Significant Shareholders	Number of Shares held	Voting Rights
Fragiolig Holdings Limited	37,197,437	79.39
Atlas International Holdings Limited	6,461,425	13.79
TOTAL	43,658,862	93.18

3. The ultimate parent company of Fragiolig Holdings Limited and Atlas International Holdings Limited is RIG Investments Sarl and the ultimate controlling party by a virtue of ownership is Mr Ron Izaki.

18.4 Directors' share interests

There have been no changes to the Directors' share interests during the nine and three months ended 30 September 2020. No Director had any direct interest in the share capital of the Company or any of its subsidiaries during the nine or three months ended 30 September 2019.

18.5 Contingencies

The Board of Directors of the Company (the Board) conducted a review of the PMA and in particular the means by which performance fee is calculated. Of primary concern to the Board were the following issues:

- the drafting of the clauses and definitions in the PMA as regards the calculation of performance fee are not concise and ambiguity can lead to multiple interpretations and thus differing calculations;

- the lack of a properly constructed high-water mark mechanism has led to performance fees being paid multiple times on NAV gains in the same bracket, i.e. performance fees have been paid or accrued on certain gains in NAV, but due to subsequent reductions in NAV in a following period, upon the NAV increasing again in the next period, performance fees have been paid or accrued again on the same NAV increase for which performance fees have been paid previously;

- performance fee calculations appear to be disproportionate to the intention of the PMA which is to set a 12% hurdle rate.

INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

Having concluded its review, and taken external legal advice on the interpretation of the PMA, the Board was of the view that it does not agree with the interpretation which has been taken previously in respect of performance fee calculations and it disputed the amounts which have been paid or accrued. Past Performance Fees which have accrued, but which are yet to be paid amount to $\in 10.8$ m. The amount due to AMC is subject to change that is contingent on the resolution of the dispute. No asset has been recognised in respect of any reduction of the said balance. AEL and AMC have agreed that no performance fee will be due for 2019. On the basis of the above, the Board was in a position to approve the financial statements of the Company and the consolidated financial statements of the Group for the year ending December 2019, without accruing for a performance fee for 2019 and at the same time the Board commenced discussions with AMC to discuss the above concerns and agree a mechanism which will ensure a fair and appropriate remuneration structure for both parties going forward from 2020. The value of performance fee for 2019 and 2020 which has not been accrued by the Company (if historical interpretation of calculation method is applied) amounts to \in nil million. The Board have not yet agreed a mechanism for 2020 onwards and accordingly no performance fee has been accrued for the period to 30 September 2020.

19. Principal subsidiary companies and joint ventures

The table below lists the current operating companies of the Group. In addition, the Group owns other entities which have no operating activities. In 2020 there were no changes in the Group structure except of the acquisition of 10.1% shareholding in Fattal Leonardo Royal Berlin GmbH at the price of €0.8 and its subsequent sale at the price of €1.1m. As a result the Group reported a profit of €0.3m on this transaction.

In 2019 there were no changes in the Group structure except for:

- Deconsolidation of the subsidiary over which the Group control was lost:

a Hungarian subsidiary, Felikon Kft., which received on 27 February 2019 a decision from the Metropolitan Companies' Court in Budapest ordering the compulsory strike off of Felikon Kft. The court's decision commenced a process of liquidation and deletion of Felikon Kft. from the companies register. No gain or loss was recognised in the consolidated financial statements for the year ended 31 December 2019 as a result of this event. Additionally, the liability of €6.2m in note 15c arose as it was no longer subject to elimination post de-consolidation of Felikon from the Group.

Investments in subsidiary undertakings are stated at cost. Cost is recognised as the nominal value of the company's shares and the fair value of any other consideration given to acquire the share capital of the subsidiary undertakings. A list of principal subsidiary undertakings and joint ventures is given at note 19 of the interim condensed consolidated financial information.

The Company has carried out an impairment review of the carrying values of investments and loans receivable from subsidiaries. The Company considers the best indication of value of investments and loans to subsidiaries to be the valuation reports produced by the independent qualified experts.

In the nine months period ended 30 September 2020 €14.9 million was recognised in other operating expenses in respect of impairment on investment in subsidiaries (in 2019 €16.4 million was recognised in other operating income in respect of reversal of impairment on investment in subsidiaries; in the nine months period ended 30 September 2019: €nil million was recognised in other operating expenses in respect of impairment on investment in subsidiaries).

The method applied to assign value to the company's investments is fair value less costs to sell and has been based on the property valuations assessed by independent experts and, where appropriate, management. In assessing the value of each investment the Company has considered not only the asset value recognized in the books of the individual entities but also the valuation amount of elements held at cost. Substantially, this has resulted in the carrying values of investments and loans receivable from subsidiaries being compared to the adjusted net asset value of the Group. The Net Asset Value of the Group has decreased from €142.5m to €125.4m which derives an impairment of €14.9m such that the Company's net assets match and do not exceed the Group's Net Assets.
