### **Chairman's Statement**

### Dear Shareholders,

I am pleased to announce the unaudited financial results for Atlas Estates Limited ("Atlas" or "the Company") and its subsidiary undertakings ("the Group") for the nine and three months ended 30 September 2013.

In the current financial market conditions key priorities are enhancing liquidity and gaining access to capital. Both of these objectives are vital for operations as they will underpin our drive to progress the projects we currently have under development through to completion, whilst at the same time supporting growth of the operations. Based on current expectations access to capital is expected to continue to be the key challenge for Group companies for the foreseeable future.

The projects that the Group is currently developing in Warsaw (*Apartamenty przy Krasińskiego, Concept House* and *Capital Art Apartments III & IV*) are well placed to meet the ongoing demand for quality residential property, which is demonstrated by a high level of pre-sales (as presented in the Property Manager's Report on page 12). Moreover in April and July 2013 the Group successfully completed construction of two of the above mentioned development projects (*Concept House* and *Apartamenty przy Krasińskiego* respectively). In the fourth quarter of 2013 Atlas expects to realise income from pre-sale agreements on these completed projects.

### **Reported Results**

As of 30 September 2013 the Group has reported basic net assets of €73.6 million.

The basic net assets remained at similar level as compared to 31 December 2012 primarily as a result of the following movements:

- €2.4 million bank loan write off. In the first quarter 2013 the Group reached a settlement with the bank financing its property in Bulgaria based on which the Group received €2.4 million discount on the one off repayment of the outstanding loan facility; offset by
- €3.3 million fall of property, plant and equipment as well as investment properties mainly due to
   €6.0 million adverse foreign exchange movements, €2.9 million impairment charge, offset by €4.5 million increase in fair value of investment properties.

The basic net assets decreased by  $\notin 23.2$  million from  $\notin 96.8$  million as at 30 September 2012. This decline was mainly due to  $\notin 9.6$  million fall in the valuation of the investment properties and  $\notin 12.3$  million fall in the valuation of hotels (the property plant and equipment).

Managing working capital is an important challenge for the management. Over the last year we observe sudden working capital deterioration from ( $\in$ 6.1 million) as of 30 September 2012 to ( $\in$ 78.3 million) as of 31 December 2012 and ( $\in$ 77.5 million) as of 30 September 2013. This is primarily due to reclassification of two bank loans totaling  $\in$ 65.3 million from non-current liabilities to current liabilities as a result of event of default that occurred. However it must be outlined that on 15 October 2013 the Company signed the amendment to existing bank loan agreements extending repayment dates (as further disclosed on page 10). Following this extension the facilities will be reclassified again as long term loans consequently improving the Group's working capital position.

At the operating level the Group reported an increase in gross profit margin from 35% in the nine months period ended 30 September 2012 to 37% in the nine months period ended 30 September 2013, which is mainly the result of the reduction of the Company's activity in the residential segment. Property rental and hotel operation segments realise higher gross margins as compared to the residential segment, as presented on pages 25 and 26.

In the first nine months ended 30 September 2013 profit after tax amounted to  $\notin 0.1$  million as compared to the loss for the nine months ended 30 September 2012 amounting  $\notin 2.0$  million. This change is the net effect of:

- €13.0 million increase in change of property values,
- €4.4 million improvement in the financing activity primarily due to decrease of margin on several loan facilities and bank loan write off, offset by
- €14.2 million change in foreign currency exchange differences from €9.4 million foreign exchange gain in the first nine months of 2012 to €4.8 million foreign exchange loss in the first nine months of 2013.

Foreign currency exchange differences (gains and losses) presented in the consolidated income statement mainly represent the unrealised foreign exchange differences on the bank loans.  $\in$  4.0 million out of  $\in$  4.8 million foreign exchange losses noted in the nine months ended 30 September 2013 was due to the unrealised foreign exchange

losses on EUR denominated bank loans in Polish and Hungarian subsidiaries. The foreign exchange losses occurred as a result of depreciation of PLN and HUF against EUR in the nine months ended 30 September 2013.

### Financing, Liquidity and Forecasts

The Directors consider that the current outlook presents operating as well as financing challenges in which the Group operates.

The Group's forecasts and projections have been prepared taking into account the economic environment and its challenges and mitigating factors. These forecasts incorporate management's best estimate of future trading performance, potential sales of properties and the future financing requirements of the Group.

While there will always remain some inherent uncertainty within the aforementioned cash flow forecasts, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly they continue to adopt the going concern basis in preparing the interim condensed consolidated financial information for the nine months ended 30 September 2013, as set out in note 1.

### Investing Policy and Strategy

Atlas mainly invests in Poland in a portfolio of real estate assets across a range of property types. The Group also operates in the Hungarian, Romanian and Bulgarian real estate markets.

The Company actively targets Poland, where the economy is believed to be the most attractive amongst CEE economies.

The Company makes investments both on its own and, where appropriate, with joint venture partners in residential, industrial, retail, office and leisure properties in order to create an appropriately balanced portfolio of incomegenerating properties and development projects.

The Company may employ leverage to enhance returns on equity. Wherever possible, the Directors intend to seek financing on a non-recourse, asset by asset basis. The Company has no set limit on its overall level of gearing. However, it is anticipated that the Company shall employ a gearing ratio of up to 75 per cent of the total value of its interest in income-generating properties within its property portfolio.

### Net Asset Value ("NAV") and Adjusted Net Asset Value ("adjusted NAV")

In the nine months to 30 September 2013, NAV per share, as reported in the condensed consolidated quarterly financial information that has been prepared in accordance with International Financial Reporting Standards ("IFRS"), amounted to €1.6 per share and remained unchanged since 31 December 2012. It decreased by 24% from €2.1 per share at 30 September 2012.

The most recent valuation of the property portfolio was carried out on 30 June 2013. The semi-annual valuation was performed partially by external experts and partially internally by the Property Manager. As of 30 June 2013 Jones Lang LaSalle was acting as an independent external expert.

The change in value of the development land holdings over their book cost reflects the latent value within the project, which is over and above the book cost. These land holdings are valued on a residual value and comparative basis. Profit is taken upon completion of the project and when substantially all the risks and rewards of ownership of an apartment or property are transferred to the client.

### **Corporate Governance**

Atlas ensures that the Group applies a robust corporate governance structure, which is vital in the current economic conditions. This is important as there is a clear link between high quality corporate governance and shareholder value creation. The Group's annual financial statements for the year ended 31 December 2012 set out how Atlas applies the standards of corporate governance.

### **Risks and uncertainties**

The Board and the Property Manager continually assess and monitor the key risks of the business. The principal risks and uncertainties that could have a material impact on the Group's performance for the rest of the financial year 2013 are summarised in the Property Manager's Report on pages 14 and 15 below.

### Prospects

The Company intends to continue to invest resources and management attention in its income producing assets in order to drive occupancy and improve cashflows.

With the ongoing recovery in Poland the Company is also focusing on driving its sales activities in several residential projects in Warsaw as presented in the Review of the Property Manager.

Andrew Fox CHAIRMAN 14 November 2013

### **Review of the Property Manager**

In this report we present the operating results for the nine and three months ended 30 September 2013. Atlas Management Company Limited ("AMC") is the Property Manager appointed by the Company to oversee the operation and management of Atlas' portfolio and advice on new investment opportunities. At 30 September 2013, the Company held a portfolio of twenty one properties comprising eleven investment properties of which eight are income yielding properties, two are held for capital appreciation and one is held for sale, two hotels and eight development properties.

It could be a long road to recovery for the real estate market in Central & Eastern Europe (CEE). Before the global financial crisis, investors perceived the individual countries of the CEE more as one region, resulting in narrowing differences between the individual countries' investment markets. In reaction to the global financial crisis and the reappraising of risk, investors are increasingly tending to look at each country and its economy individually. This divergence and a search for quality have produced a mixed picture in the region, albeit since 2009 the time has been challenging for everyone.

As a result of these uncertainties and changing conditions, management has taken measures to mitigate risks across the portfolio. This has included reducing costs and staffing levels and putting on hold higher risk investment activity. Nevertheless, key development projects have been completed on time and several new developments have commenced.

### Markets and Key Properties

### Poland

This is the major market of operation for the Group, with 79% of the Group's portfolio located there. The Polish economy has been one of the most resilient in Europe with GDP growth of 2.0% in 2012 (1.3% expected 2013). There had been significant increases in property prices in previous years. These were reversed in 2009, which showed significant drop in assets values. So far, 2010-June 2013 has shown a trend of stabilisation at the lower levels of valuations.

### Hilton Hotel, Warsaw

The Hilton Hotel in the Wola district of Warsaw is the Group's flagship asset. The hotel's performance slightly declined in 2013 as compared to 2012 mainly since 2012 was a record year for the hotel in light of the UEFA European Football Championship games that took place in Warsaw last year.

### **Platinum Towers**

With its construction finished, 392 apartments and penthouses have been sold or presold to date and the last 4 penthouses are still available for sale. This residential development alongside the Hilton Hotel provides a unique development in the city. The plan is also to build a mixed use (residential and office) tower, on the neighboring plot, which will enhance the attractiveness of this site.

#### **Capital Art Apartments**

The Capital Art Apartments project in Warsaw is another development in the Wola district of Warsaw close to the city centre. It is a four stage development which will release 784 apartments in the city with parking and amenities, including retail facilities.

With both the first and the second stage completed, the Company has, to date, sold all of the 219 apartments in the first stage, with a further 294 out of 300 apartments in the second stage having been sold. Construction of the third stage, comprising 189 apartments, commenced in the fourth quarter of 2012 and as of 30 September 2013 the Company pre-sold 81 apartments. Construction of the fourth stage, comprising 76 apartments, commenced in the third quarter of 2013.

### Concept House

The Concept House project is a development in the Mokotów district of Warsaw. It consists of 160 apartments in the city with parking and amenities, including retail facilities.

The construction of the development is completed and as of 30 September 2013 the Company pre-sold 104 apartments.

### Apartamenty przy Krasińskiego

Apartamenty przy Krasińskiego project is a development in the Żoliborz district of Warsaw. This development includes 303 apartments in the city with parking as well as amenities, including retail facilities.

The construction of the development was completed in July 2013 and as of 30 September 2013 the Company presold 243 apartments.

### Other properties in Poland

The Group also owns two investment properties in Poland.

The Millennium Plaza is a 32,700 sqm office and retail building centrally located in Warsaw. During the last years its occupancy increased to 91% by September 2012, then the occupancy sharply decreased to 68% in December 2012 due to the loss of a major tenant. It is expected that occupancy will gradually increase back to its recorded levels over time.

The Sadowa office is a 6,550 sqm office building in Gdańsk. During the year its occupancy ratio increased from 92% as of 31 December 2012 to 100% as of 30 September 2013.

The Group's portfolio also contains valuable land assets in Warsaw and Gdańsk.

### Hungary

In Hungary, the Group's portfolio is comprised of seven properties, all of which are located in Budapest. Five are income producing assets. One of them – Moszkva office building – has been classified as an asset held for sale – as disclosed in note 15 of the condensed consolidated quarterly financial information.

The Hungarian economy has suffered from the global credit crisis and lack of liquidity available for development projects. As a result, Atlas has stopped development activity and has experienced client losses and pricing pressures affecting its income yielding assets. In 2012 a decline in GDP of 1.7% was noted (in 2013 GDP increase of 0.2% is expected).

### Romania

The Group's portfolio contains three properties in Romania, including the Golden Tulip Hotel and two significant land banks. The Romanian GDP increased by 0.7% in 2012 (GDP increase of 2.0% is expected in 2013). Despite the difficult trading conditions, occupancy rates at the Golden Tulip slightly increased and amounted to 60% for the nine months period ended 30 September 2013 (59% for the nine months period ended 30 September 2012).

### Bulgaria

The Group holds one property in Bulgaria, which is a ca. 3,500 sqm office building in Sofia.

### **Financial Review**

The on-going analysis of the economics of the region and the key measures of the sectors in which the Group operates are vital to ensure it does not become over exposed to, or reliant on, any one particular area. AMC evaluates the risks and rewards associated with a particular country, sector or asset class, in order to optimise the Company's return on investment and therefore the return that the Company is able to deliver to Shareholders over the longer term.

### Portfolio valuation and valuation methods

The most recent valuation of the property portfolio was carried out on 30 June 2013. The semi-annual valuations was performed partially by external experts and partially internally by the Property Manager. As of 30 June 2013, 71% (by value) of the total property portfolio was valued externally by Jones Lang LaSalle, acting as independent expert.

### Loans

As at 30 September 2013, the Company's bank debt was €192 million (31 December 2012: €206 million; 30 September 2012: €206 million).

Since the valuations are performed on semi-annual basis in the table below the loans column represents the loans balance as of 30 September 2013 (30 June 2013, 31 December 2012 consequently) and the valuation column represents the market value as of 30 June 2013 (30 June 2013, 31 December 2012 consequently). Loans, valuations and Loan to Value ratios ("LTV") for those periods may be analysed as follows:

|  | Loans                  | Valuation       | Loan<br>to<br>Value | Loans          | Valuation       | Loan<br>to<br>Value | Loans           | Valuation       | Loan to<br>Value  |

The valuations in the table above differ from the values included in the consolidated balance sheet as at 30 September 2013, 31 December 2012 and 30 September 2012 due to the treatment under IFRS of land held under operating leases and development property.

In 2013 LTV ratio of investment property improved as compared to 31 December 2012 due to obtaining new financing for *Galeria Platinum Towers* as described on page 10.

The LTV ratio of development property under construction has improved over the analyzed periods as a result of the repayment of facility extended to *Apartamenty przy Krasińskiego* project.

As of 30 September 2013 the LTV ratio of hotels and the LTV ratio of other development property amounted to 66% and 94% respectively and remained at similar level as compared to 30 June 2013 and 31 December 2012.

The gearing ratio is 70% net debt as a percentage of total capital (net debt plus equity attributable to equity holders; net debt is a total of bank borrowings less cash and cash equivalents). The ratios remained at similar levels as compared to 30 June 2013 (73%) and 31 December 2012 (72%).

### **Debt financing**

#### New loans

On 2 September 2013 the Group obtained financing for *Galeria Platinum Towers* project located in Warsaw. The loan facility amounted to  $\in$ 4.3 million and is to be repaid by 30 June 2018. This facility was used as refinancing of the facility extended to *Platinum Towers* project.

### Update on current status

The Group has 4 facilities that have been cross collateralised since February 2010. As of 30 September 2013, as of 30 June 2013 and as of 31 December 2012 these facilities were presented as bank loans and overdrafts due within one year or on demand:

- 1. €61.2 million (30 June 2013 and 31 December 2012: €61.4 million) facility secured on the Millennium Plaza Building in Warsaw, Poland with a maturity date on 31 December 2016;
- 2. €3.9 million (30 June 2013 and 31 December 2012: €3.9 million) facility secured on the Ligetvaros Centre in Budapest, Hungary with a maturity date on 31 December 2021;
- 3. €12.3 million (30 June 2013 and 31 December 2012: €12.9 million) facility secured on the Voluntari land plot in Bucharest, Romania with a maturity date on 31 December 2012;
- 4. €13.5 million (30 June 2013 and 31 December 2012: €13.5 million) facility secured on the Solaris land in Bucharest, Romania with a maturity date on 31 December 2012.

Voluntari and Solaris land loans totaling €25.8 million (30 June 2013 and 31 December 2012: € 26.4 million) with maturity date 31 December 2012 have not been paid and as a result the remaining loans (Millennium and Ligetvaros) totaling €65.1 million (30 June 2013 and 31 December 2012: €65.3 million) had to be reclassified from non-current liabilities to current liabilities due to event of default in the cross- collateralization agreement. On 15 October 2013 the Company signed the amendment to the existing bank loan agreements extending repayment date of Romanian facilities (Voluntari and Solaris) to 31 December 2015. Since 15 October 2013 all above mentioned facilities totaling €90.9 million are not in default and are classified as non-current liabilities.

In the preparation of the interim condensed consolidated financial information for the nine months ended 30 September 2013, the directors have reclassified one additional loan totalling €14.4 million within the consolidated balance sheet from non-current liabilities to current liabilities as bank loans and overdrafts due within one year or on demand, where covenant breaches or defaults on these loans arose. The Company is in dialogue with the bank and is discussing restructuring of this loan.

In addition, there are three loans that are classified as bank loans and overdrafts due within one year or on demand in the amount of €13.8 million. Negotiations are ongoing with the banks on refinancing terms:

 Platinum Towers (€0.4 million) and Kokoszki (€9.9 million) – the Company signed annexes to the existing bank loan agreements extending repayment date to 31 May 2013. Negotiations relating to further extension are in progress.

### Review of the operational performance

### Revenues

Total revenues for nine months ended 30 September 2013 were €23.9 million compared to €33.6 million for the nine months ended 30 September 2012. The Group's principal revenue streams are from its hotel operations, property rental income and income from the sale of the residential apartments that the Group develops. As the Group maintains a diversified portfolio of real estate investments, seasonality or cyclicality of yielded income or results is also highly diversified.

Proceeds from the sale of residential apartments developed by the Group are only recognised when apartments have been handed over to new owners with notarial deed signed and the full price of the apartment received by the Group. At this moment the economic risks and rewards are transferred to the new owner and in accordance with the Group's accounting policy, the revenue and associated costs of these apartment sales are recognised in the income statement. Please note that for *Concept House, Apartamenty przy Krasińskiego* and *Capital Art Apartments III* projects no sales and associated costs have been recognized in the income statement as the above mentioned criteria have not yet been met.

The increase in gross loss realised in the first nine months of 2013 as compared to the same period in 2012 is mainly a result of drop in number of apartments handed over in *Platinum Towers* and *Capital Art Apartments II* in 2013. As presented below as of 30 September 2013 the Group pre-sold 347 apartments in *Concept House* and *Apartamenty przy Krasińskiego* projects. Most of these pre-sale contracts are expected to be completed in Q4 2013.

In the first nine months of 2013 the gross margin realized by the Property Rental segment decreased as compared to the first nine months of 2012 mainly as a result of low occupancy ratio in Millennium in 2013.

EURO 2012 the Football Championships that took place in Warsaw in June 2012 contributed to the outstanding performance of Hilton in the nine months ended 30 September 2012. In nine months ended 30 September 2013 the hotel operations declined mainly due to decrease in average daily rate per room and additional income from the organization of special events.

### Cost of operations

Cost of operations were  $\in$ 15.2 million in the nine months ended 30 September 2013 compared to  $\in$ 21.9 million for the nine months ended 30 September 2012.  $\in$ 5.4 million of this decrease is principally due to lower number of apartments handed over in *Platinum Towers* and *Capital Art Apartments* in 2013 (30 September 2013: 4 apartments) as compared to 2013 (30 September 2012: 37 apartments).

### Other operating income and expenses

Other operating income and expenses are items that do not directly relate to the day-to-day activities of the Group. Such items include: income and expenses for items that are recharged to contractors and other suppliers at cost, and other such items.

The increase of other operating income by  $\notin 0.9$  million from  $\notin 0.7$  million for the nine months ended 30 September 2012 to  $\notin 1.6$  million as of 30 September 2013 is mainly due to  $\notin 0.6$  million refund of VAT that was expensed in previous years.

The increase of the other operating expenses by  $\in 2.4$  million from  $\in 0.8$  million for the nine months ended 30 September 2012 to  $\in 3.2$  million as of 30 September 2013 is mainly due to  $\in 2.9$  million impairment of property, plant and equipment recognised in 2013. The impairment results from  $\in 1.3$  million decrease in the most recent valuation of hotel in Romania and  $\in 1.6$  million tangible assets write off (associated with liquidated subsidiary).

### Valuation movement

The increase in the balance of investment properties portfolio was only of  $\in 1.5$  million in the nine months period ended 30 September 2013 ( $\in 2.0$  million decrease in the nine months period ended 30 September 2012). As of 30 September 2013 this has been mainly reflected by  $\in 4.5$  million increase presented as "increase in value of investment properties" in the Income Statement, offset by  $\in 3.7$  million decrease of "other reserves (exchange adjustments)" in the Balance Sheet. As of 30 September 2012 this has been reflected by  $\in 8.4$  million decrease presented as "decrease in value of investment properties" in the Income Statement, offset by  $\in 10.0$  million increase of "other reserves (exchange adjustments)" in the Balance Sheet.

Although the market value of investment properties expressed in EURO changed insignificantly, the movements reflected in the income statement were significant due to fact that local currencies weakened against EURO in the first half of 2013 and strengthen against EURO in the first nine months of 2012.

### Finance income and costs

The income statement includes finance costs of  $\in$ 4.3 million for the nine months ended 30 September 2013, compared with  $\in$ 5.9 million in comparative period in 2012, representing mainly interests on bank loans and related bank charges. The decline is mainly attributable to decrease of margin on Romanian land loans and EURIBOR rates on several loan facilities.

Finance income increased by  $\in 2.8$  million primarily due to  $\in 2.4$  million bank loan write off. In the first quarter 2013 the Group reached a settlement with the bank financing its property in Bulgaria based on which the Group received  $\in 2.4$  million discount on the one off repayment of the outstanding loan facility.

### Foreign exchange

The fluctuations in exchange rates in the underlying currencies in the countries in which the Group operates and owns assets have resulted in significant foreign exchange differences.

In the nine months ended 30 September 2013 the Group reported exchange losses of  $\in$ 4.8 million as compared to  $\in$ 9.4 million gains in the nine months ended 30 September 2012.  $\in$ 4.0 million out of  $\in$ 4.8 million foreign exchange losses noted in the first nine months of 2013 was due to the unrealised foreign exchange losses on EUR denominated bank loans in Polish and Hungarian subsidiaries. The foreign exchange losses occurred as a result of depreciation of PLN and HUF against EUR in the first nine months of 2013.

A summary of exchange rates by country for average and closing rates against the reporting currency as applied in the financial statements are set out below.

### Net Asset Value

The Group's property assets are categorised into three classes, when accounted for in accordance with International Financial Reporting Standards. The recognition of changes in value from each category is subject to different treatment as follows:

- Yielding assets let to paying tenants classed as investment properties with valuation movements being recognised in the Income Statement;
- Property, plant and equipment operated by the Group to produce income, such as the Hilton hotel or land held for development of yielding assets (PPE) – revaluation movements are taken directly to reserves, net of deferred tax; and
- Property developments, including the land on which they will be built held as inventory with no increase in
  value recognised in the financial statements unless where an increase represents the reversal of previously
  recognized deficit below cost.

### **Ongoing activities**

During the first nine months of 2013, the Company continued to identify ways by which it can generate added value through the active management of its yielding asset portfolio. It has also continued to crystallise the value of development projects by the pre-selling of apartments under construction and by the completion of development property in the course of construction.

The property portfolio is constantly reviewed to ensure it remains in line with the Company's stated strategy of creating a balanced portfolio that will provide future capital growth, the potential to enhance investment value through active and innovative asset management programmes and the ability to deliver strong development margins.

A key management objective is to control and reduce construction costs at its development projects, particularly in the light of global variations in commodity prices. Another key objective is the refinancing of the portfolio, the securing of construction loans and the evaluation of various fund raising opportunities.

### Financial management, operational management and material risks

In continuing to fulfil its obligations to its Shareholders and the markets, together with maintaining its policy of maximum disclosure and timely reporting, it is continually improving and developing its financial management and operational infrastructure and capability. Experienced operational teams are in place in each country, where there is significant activity, otherwise a central operational team and investment committee monitor and control investments and major operational matters. As such, the management team continually reviews its operating structures to optimise the efficiency and effectiveness of its network, which is particularly important given the current environment.

We continue to enhance our internal control and reporting procedures and IT systems in order to generate appropriate and timely management information for the ongoing assessment of the Group's performance. There is in operation a financial reporting system which provides the Group with the required reporting framework, financial management and internal control.

### **Global Economic Conditions**

The Board and the Property Manger closely monitor the effects that the current global economic conditions have on the business and will continue to take steps to mitigate, as far as possible, any adverse impact that may affect the business.

An impact of the economic uncertainty are the fluctuations in exchange rates of countries in the region. AMC has been advising the Board on a regular basis with respect to financial performance and the effect of external factors on the business.

### **Financing and liquidity**

Management has experienced a change in the approach and requirements of lenders for financing in the CEE region which has been reflected in the covenants that are applied to facilities, such as a reduction of loan to value ratio, increasing margins and an increase in levels of required pre-sales on development projects. The management team see this as a potential risk to the ongoing development of the Company and as a result are devoting significant resource to the management of banking relationships and the monitoring of risk in this area.

Cash is managed both at local and head office levels, ensuring that rent collection is prompt, surplus cash is suitably invested or distributed to other parts of the Group, as necessary, and balances are held in the appropriate currency. The allocation of capital and investment decisions are reviewed and approved by local operational management, the executive team, the central finance and operational teams, by the investment committee of AMC and, finally, by Atlas' Board. This approach provides the Company with a rigorous risk management framework. Where possible, the Company will use debt facilities to finance its projects, which the Company will look to secure at appropriate times and when available, depending on the nature of the asset – yielding or development.

### Currency and foreign exchange

Foreign exchange and interest rate exposures are continually monitored. Foreign exchange risk is largely managed at a local level by matching the currency in which income and expenses are transacted and also the currencies of the underlying assets and liabilities.

Most of the income from the Company's investment properties is denominated in Euro and our policy is to arrange debt to fund these assets in the same currency. Where possible, the Company looks to match the currency of the flow of income and outgoings. Some expenses are still incurred in local currency and these are planned for in advance. Development of residential projects has created receipts largely denominated in local currencies and funding facilities are arranged accordingly. "Free cash" available for distribution within the Company is identified and appropriate translation mechanisms put in place.

### Conclusions

AMC's key strategic objective is the maximisation of value for the Company's Shareholders, which it continues to work towards. Its teams are very experienced in the active management of investment and development property and provide the Company with local market knowledge and expertise. Good progress has been made with the sales of key development projects in Warsaw (*Apartamenty przy Krasińskiego* and *Concept House*), *Capital Art Apartments* (the second and third stage) and *Platinum Towers*. In April and July 2013 the constructions of *Concept House and Apartamenty przy Krasińskiego* were successfully completed.

## SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the nine and three months ended 30 September 2013

### 1. Basis of preparation

This condensed quarterly financial information for the nine and three months ended 30 September 2013 has been prepared in accordance with International Accounting Standard No. 34, "Interim Financial Reporting" ("IAS 34"). The financial information has been prepared on a going concern basis and on a historical cost basis as amended by the revaluation of land and buildings and investment property, and financial assets and financial liabilities at fair value. The consolidated income statement, consolidated statement of comprehensive income, consolidated statement of financial position, consolidated statement of changes in equity and consolidated statement of cash flows are unaudited. This unaudited interim condensed consolidated financial information should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended 31 December 2012. The nine month financial results are not necessarily indicative of the full year results.

The Directors consider that the outlook presents ongoing challenges in terms of the markets in which the Group operates, the effect of fluctuating exchange rates in the functional currencies of the Group and the availability of bank financing for the Group.

As at 30 September 2013 the Group held land and building assets with a market value of €269 million, compared to the external debt of €192 million. Subject to the time lag in realising the value in these assets in order to generate cash, this "loan to value ratio" gives a strong indication of the Group's ability to generate sufficient cash in order to meet its financial obligations as they fall due. Any land and building assets and associated debts which are ring-fenced in unique, specific, corporate vehicles, which are subject to repossession by the bank in case of a default of loan terms would clear the outstanding debt and not result in additional financial liabilities for the Company or for the Group. There are also unencumbered assets which could potentially be leveraged to raise additional finance.

In assessing the going concern basis of preparation of the condensed consolidated interim financial information for the nine months ended 30 September 2013, the directors have taken into account the status of current negotiations on loans. The Company has also continued to provide funds to service interest and capital repayments on these loans on behalf of its subsidiary companies. These are disclosed in note 14 as part of the bank loans note.

Nevertheless, the Directors are aware that the liquidity position of the company has been and still continues to be tight. The company so far has been successful in managing its cash position carefully and will continue to do so, despite the various pressures. Managing this situation will require the Company to use its various pockets of liquidity within its portfolio of assets and at the same time to delicately manage its ongoing operations and relationships with its lending banks.

The Group's forecasts and projections have been prepared taking into account the economic environment and its challenges and the mitigating factors referred to above. These forecasts take into account reasonably possible changes in trading performance, potential sales of properties and the future financing of the Group. They show that the Group will have sufficient facilities for its ongoing operations.

While there will always remain some inherent uncertainty within the aforementioned cash flow forecasts, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence in the foreseeable future. Accordingly they continue to adopt the going concern basis in preparing the condensed consolidated financial information for the nine and three months ended 30 September 2013.

### 2. Accounting Policies

The accounting policies adopted and methods of computation are consistent with those of the annual financial statements for the year ended 31 December 2012, as described in the annual financial statements for the year ended 31 December 2012, and with those expected to be applied to the financial statements for the year ended 31 December 2013 including the adoption of IFRS 13 "Fair value measurement" which has had no significant impact on the consolidated results or financial position for the current reporting period.

## SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

### For the nine and three months ended 30 September 2013

There are immaterial sales between the business segments. Unallocated costs represent corporate expenses. Segment assets include investment property, property, plant and equipment, intangible assets, inventories, debtors and operating cash.

Segment liabilities comprise operating liabilities and financing liabilities.

Unallocated assets represent cash balances, receivables and other assets held by the Company and those of selected sub-holding companies, and deferred tax assets.

Unallocated liabilities include accrued costs and deferred taxation liabilities within the Company and selected sub-holding companies as at the balance sheet date. Unallocated liabilities also include some borrowings, as these are non-operating activities.

The Group manages its business segments on a region wide basis. The operations in the reporting periods were based in four main countries within the Group's region of focus with mainly cash balances being held by the parent company. The four principal territories were:

- Poland,
- Hungary,
- Bulgaria, and
- Romania.

## SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the nine and three months ended 30 September 2013

### 8. Earnings/ (loss) per share ("EPS"/ "LPS")

Basic earnings/ (loss) per share is calculated by dividing the profit / (loss) after tax attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

For diluted earnings/ (loss) per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all potentially dilutive ordinary shares. The difference in the number of ordinary shares between the basic and diluted earnings/ (loss) per share reflects the impact were the outstanding share warrants to be exercised.

Reconciliations of the profits/ (losses) and weighted average number of shares used in the calculations are set out below:

As at 30 June 2013 buildings were partially valued internally by the Property Manager and partially externally by Jones Lang LaSalle, Chartered Surveyors, qualified professional external valuers. For all properties, valuations were based on current prices in an active market. The results:

- revaluation adjustments, net of applicable deferred taxes, have been taken to the revaluation reserve in shareholders' equity (page 22),

- impairment adjustments have been taken to other operating expenses (note 5).

As of 30 September 2013, the Group has pledged property, plant and equipment of €79.6 million (30 June 2013: €78.2 million; 31 December 2012: €82.9 million; 30 September 2012: €92.8 million) to secure certain banking facilities granted to subsidiaries. Borrowings for the value of €59.1 million (30 June 2013: €59.6 million, 31 December 2012: €60.6 million, 30 September 2012: €61.1 million) are secured on these properties (note 14).

The bank loans are secured on various properties of the Group by way of fixed or floating charges.

The fair value of the fixed and floating rate borrowings approximated their carrying values at the balance sheet date, as the impact of marking to market and discounting is not significant. The fair values are based on cash flows discounted using rates based on equivalent fixed and floating rates as at the end of the year, and as such would be classified as level 2 inputs under IFRS 13.

Bank loans are denominated in a number of currencies and bear interest based on a variety of interest rates. An analysis of the Group's borrowings by currency:

### New loans

On 2 September 2013 the Group obtained financing for the *Galeria Platinum Towers* project located in Warsaw. The loan facility amounted to  $\notin$ 4.3 million and is to be repaid by 30 June 2018. This facility was used as refinancing of facility extended to *Platinum Towers* project.

### Update on current status

The Group has 4 facilities that have been cross collateralised since February 2010. As of 30 September 2013, as of 30 June 2013 and as of 31 December 2012 these facilities were presented as bank loans and overdrafts due within one year or on demand:

1. €61.2 million (30 June 2013 and 31 December 2012: €61.4 million) facility secured on the Millennium Plaza Building in Warsaw, Poland with a maturity date on 31 December 2016;

## SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

### For the nine and three months ended 30 September 2013

- 2. €3.9 million (30 June 2013 and 31 December 2012: €3.9 million) facility secured on the Ligetvaros Centre in Budapest, Hungary with a maturity date on 31 December 2021;
- 3. €12.3 million (30 June 2013 and 31 December 2012: €12.9 million) facility secured on the Voluntari land plot in Bucharest, Romania with a maturity date on 31 December 2012;
- 4. €13.5 million (30 June 2013 and 31 December 2012: €13.5 million) facility secured on the Solaris land in Bucharest, Romania with a maturity date on 31 December 2012.

Voluntari and Solaris land loans totaling €25.8 million (30 June 2013 and 31 December 2012: € 26.4million) with maturity date 31 December 2012 have not been paid and as a result the remaining loans (Millennium and Ligetvaros) totaling €65.1 million (30 June 2013 and 31 December 2012: €65.3 million) had to be reclassified from non-current liabilities to current liabilities due to event of default in the cross- collateralization agreement. On 15 October 2013 the Company signed the amendment to the existing bank loan agreements extending repayment date of Romanian facilities (Voluntari and Solaris) by 31 December 2015. Since 15 October 2013 all above mentioned facilities totaling €90.9 million are not in default and are classified as non-current liabilities.

In the preparation of the interim condensed consolidated financial information for the nine months ended 30 September 2013, the directors have reclassified one additional loan totalling  $\in$ 14.4 million within the consolidated balance sheet from non-current liabilities to current liabilities as bank loans and overdrafts due within one year or on demand, where covenant breaches or defaults on these loans arose. The Company is in dialogue with the bank and is discussing restructuring of this loan.

In addition, there are three loans that are classified as bank loans and overdrafts due within one year or on demand in the amount of €13.8 million. Negotiations are ongoing with the banks on refinancing terms:

 Platinum Towers (€0.4 million) and Kokoszki (€9.9 million) – the Company signed annexes to the existing bank loan agreements extending repayment date to 31 May 2013. Negotiations relating to further extension are in progress.

### 15. Assets classified as held for sale and directly associated liabilities

### 18.5 Share based payment

On 23 February 2006 the Company executed and adopted a Warrant Instrument and thereby constituted up to 5,114,153 Warrants that were issued on 24 February 2006 conditional upon the Company's admission to AIM on 1 March 2006. This was increased by 373,965 on 20 March 2006 upon the exercise of the Greenshoe provisions of the placing agreement. The Warrants are exercisable during the period commencing on Admission to AIM and expiring on the earlier of: (i) seven years from Admission; or, (ii) upon an offer or becoming entitled to acquire the entire issued share capital of the Company. Each of the Warrant Recipients has agreed to certain restrictions on his/its ability to exercise or transfer the Warrants held by him/it.

The exercise price of each of the Warrants is £3.41 ( $\in$ 4.08 as at 30 September 2013). The exercise price and number of ordinary shares relating to such Warrants will be subject to adjustment in respect of dilution events, including the payment by the Company of cash or special dividends, any amalgamation, reorganisation, reclassification, consolidation, merger or sale of all or substantially all of the Group's assets and other dilutive events. The Warrants are freely transferable.

## SELECTED NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

### For the nine and three months ended 30 September 2013

Warrants were valued using the Black-Scholes option pricing model. The fair value per warrant granted and the assumptions used in the calculation are as follows:

| Grant date                                       | 24 February 2006 | 20 March 2006 |
|--|------------------|---------------|
| Share price at grant date                        | £3.41            | £3.41         |
| Exercise price                                   | £3.41            | £3.41         |
| Number of recipients                             | 7                | 6             |
| Warrants issued                                  | 5,114,153        | 373,965       |
| Vesting period                                   | 1 -4 years       | 1 - 4 years   |
| Expected volatility                              | 15%              | 15%           |
| Option life                                      | 7 years          | 7 years       |
| Expected life                                    | 7 years          | 7 years       |
| Risk free rate                                   | 4.3%             | 4.3%          |
| Expected dividends expressed as a dividend yield | 8.29%            | 8.29%         |
| Possibility of ceasing employment before vesting | Nil              | Nil           |
| Fair value per warrant option                    | 18 eurocents     | 18 eurocents  |

The expected volatility is based on a sample of peer group companies as at the date of grant and has been supported by volatility to date. The expected life is the average expected period to exercise. The risk free rate of return is the projected forward sterling rate as at the date of grant.

The fair value of the employee services received in exchange for the grant of the warrants is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the warrants granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of warrants that are expected to vest. At each balance sheet date, the entity revises its estimates of the number of options that are expected to vest. It recognises the impact of the revision to original estimates, if any, in the income statement, with a corresponding adjustment to equity.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the warrants are exercised.

In 2013, the fair value of the benefit of the total warrants in issue of €nil thousand (2012: €nil thousand) has been charged to the income statement.
