Current report no. 25/ 2008 dated 4 June 2008

Correction of the current report no. 22/2008 dated 3 June 2008

In the current report no. 22/ 2008 of Atlas Estates Limited ("**Atlas**" or the "**Company**") announced on 3 June 2008 the amounts announced were slightly different from the actually agreed numbers as set forth in the circular issued to the shareholders of the Company. The correct wording of the report regarding performance fee is set forth below:

"Information regarding the performance fee of Atlas Management Company Limited

Atlas, the Central and Eastern Europe property investor and developer, hereby announces that the Board of Directors of Atlas ("the Board") has reached an agreement with Atlas Management Company Limited ("AMC"), the Company's property manager, regarding AMC's performance fee for the financial year ending 31 December 2007.

As was announced in Atlas' current report No. 18/2008 dated 16 May 2008, AMC's performance fee in respect of the financial year ending 31 December 2007 has been agreed by the Board at €7,037,442.

The first €2.5 million of this amount has already been paid in cash by the Company to AMC in April 2008. However, following an AMC initiative based on AMC's belief in the Company and its growth and a willingness to align interests between AMC and the other shareholders of the company, the Board and AMC have now agreed that AMC will receive all of the remaining €4,537,442 (or £3,629,953 applying an agreed exchange rate if £1 equaling €1.25) of the performance fee in shares, to be completed by the issue of 1,430,954 new ordinary shares.

The calculation of the shares payable for the performance fee was based on the following calculation:

- The property management agreement between AMC and the Company allows Atlas to pay AMC up to a third of the performance fee in shares, with the price to be based on the average share price for the 45 days prior to the week after the performance fee was announced, i.e. one week after the Company's full year results for the period ending 31 December 2007 published on 26 March 2008. The average share

price of £2.6842 translates to 699,141 new shares of the Company.

- The remainder of the performance fee was set on a 45 day average price prior to the Company's Q1 unaudited results, published on 15 May 2008. The average price for this period was £2.3958, which translates to 731,813 new shares of the Company.

Due to the fact that the new shares are being issued at below the Company's NAV, and due to the fact that this exceeds the maximum amount of the performance fee that can be paid in shares according to the property management agreement, this new arrangement is subject to shareholder approval by way of a resolution to be proposed at the AGM set for 27 June 2008.

If the resolution is not approved by the AGM, the balance of the performance fee will be paid to AMC in cash."
